*Advocating for Public Policies to Promote the Development & Production of
Alternative Fuels & Chemicals, with a Focus on Sustainable Aviation Fuels*

Issues to Watch May 2019

The Alternative Fuels & Chemicals Coalition (AFCC) has identified 51 programs in the President's FY2020 Budget that need attention.

Of these programs:

- ➔ **18 are under threat of elimination**
- ➔ **20 are facing reduced funding levels**
- ➔ **5 do not show up in the President's budget or any of the FY2020 agency requests** since they did not receive funding in FY2019 (or before) which AFCC wishes to restore
- ➔ **8 are scheduled to receive full funding**, but their funding levels need to be monitored since they could change during the drafting and scoring of appropriation bills.

Moreover:

- ➔ **One agency is targeted for elimination** and
- ➔ **Two agencies are targeted for relocation**

For more information on these programs and the agencies targeted for elimination and relocation, see the following pages on AFCC's website:
